To Whom It May Concern

TESTIMONIAL : ALBERT BARRY

I have had the privilege to know Albert Barry since his school days and had the pleasure of working with him professionally for the past five years.

Albert joined my architectural firm as a freelance digital artist and was responsible for all the 3D artwork required in our designs. During this time I found Albert to be diligent and meticulous in his work, and continuously displaying a very high accuracy in detail.

In a high-paced and high-stress environment of an architectural office, it was never even once required to remind Albert of any deadlines. I am aware that many a midnight candle was burned, without mention or seeking praise.

On a personal level, I have experienced Albert to have very high moral standards. His devotion to his faith clearly reflects in his honesty, integrity and caring. Before founding my architectural firm, I served as a police officer for 23 years and retired from the South African Police Service as a Brigadier General. My expectation of honesty and integrity, and particularly discipline, is higher than the norm and Albert has not disappointed.

I can highly recommend Albert Barry as a colleague and friend. He has the professional ethos, integrity and discipline to step into any role he aspires to.

Yours truly,

COLLIN SHERRIFF
